**Profile:**

A Transportation Engineer with more than 26 years of experience, including 24 years in Highway/Bridge infrastructure construction.

Worked as a Resident Engineer/Senior Construction/Resident Engineer for over 22 years at Caltrans, successfully completed multiple highway construction projects at the cost of over a Billion dollars. These projects consisted of roadways, bridges, connectors, retaining walls, sound walls, drainage, and communication facilities. Projects include 210 segments 9 to 11, 215 Segments 1 to 5 and the 215 Bi-County where I negotiated and implemented a \$15M Value Engineering Cost Proposed Contract Change Order to mitigate a one year project delay at the savings of over \$3M. Extensive knowledge in conflicts/claim resolutions, mitigating delays, Value Engineering Cost Proposals, and contract change orders. Also extensive knowledge in Utility coordination/relocations for Caltrans and Local Agency construction projects. Worked with local agencies such as SANBAG, RCTC and FHWA.

Received two Resident Engineer of the year awards and various partnering awards at the District and the State level, including Best in Class 2016 (Projects Greater Than \$50 Million), Caltrans Excellence in Partnering Award for 215 Bi-County Project.
